## CHINA ROW GROWS.

Gunboat Helena is Ordered to  
Re-Enforce Kempf.

Gunboat is Especially  
Adapted for Chi-  
nese Waters.

Strengthening American  
Forces in Disturbed  
Waters.

Bad news continues to come from Minister Kempe, and the American naval force in the Pel Ho river has been ordered to be re-enforced. The minister has cabled that the situation was worse at Pekin, and this statement, taken in connection with Admiral Kempf's alarming cablegram, announcing that an engagement had begun, decided the State Department to strengthen the naval forces nearest the scene of trouble.

Accordingly, a cablegram was sent to Admiral Kempf at Manila, directing him to dispatch at once to Admiral Kempf's command the gunboat Helena, or, if that craft is not at Manila and ready for immediate service, then some craft of corresponding light draught and power. The purpose is to place at Admiral Kempf's disposal an efficient war ship, capable of ascending the Pel Ho River as far as Tien Tsin.

Admiral Kempf's flagship, the Newark, drawing 23 feet of water, can not ascend the river safely beyond the Taku forts, near the entrance, but the little Helena, drawing only 11 feet, can safely ascend to Tien Tsin, forty miles above. She was specially designed for service in these Chinese rivers, and so is likely to prove much more effective than any other of the foreign war-ships which can pass the Taku forts and reach Tien Tsin.

She carries a battery particularly adapted to dealing with such half-organized mobs as the "Boxers." Besides her eight 4-inch rapid-fire guns, she carries four 6-pounder rapid-fire guns, four 1-pounder rapid-fire guns, two colts and one 3-inch rapid-fire gun. She is commanded by Commander Edwin K. Moore, and her complement is made up of ten officers and 166 men. In view of the service ahead of her, it is expected that Admiral Kempf will add to this one or two companies of marines. It is gathered from Admiral Kempf's address that "Boxers" are about to attack Tien Tsin, so that the Helena will be a particularly welcome addition to the foreign fleet in that part of China. If she leaves Manila at once she should reach Taku next Sunday night or Monday morning.

Secretary Hay cabled Minister Kempe at Pekin an authorization to call for re-enforcements from Admiral Kempf, and to make such disposition of his naval force as he deems proper to protect American interests generally.

The administration is still determined that the United States Government shall continue on its independent course respecting the Chinese situation, though willing to go as far as possible to aid in the restoration of peace and order in China. Therefore, Admiral Kempf has not been instructed to join the other naval commanders in the Pel Ho River in concerted action.

MISSIONARIES IN PERIL.  
The friends of the American missionaries in the disturbed zone in China are becoming alarmed, and the State Department is beginning to feel the pressure of their efforts to adopt an aggressive policy. To day inquiries were made as to the reason for

## The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in his Laboratory.  
There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaves out and the sufferer has Bright's Disease, the worst form of kidney trouble.  
Dr. Kilmer's Swamp-Root, the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

passive attitude of the United States naval forces in Chinese waters, while the Russians are reported to have promptly sent out military expeditions from Pekin for the rescue of Russia, French and Belgian subjects, whose safety was jeopardized. It was argued that the United States marines should have been likewise dispatched to the assistance of the American missionaries at Pao-Ting-Fu.  
The department's answer was that Minister Kempe, being on the scene, was better prepared than any one here to adopt relief measures, for which he had already received the sanction of the department, in the shape of a general authorization to protect American interests, which, of course, meant American lives, among other things. It also was questioned whether the very small force of marines at the minister's command could be used to make a march through hostile country and away from its base. In that case, the United States legation, the only refuge in the event of an outbreak in Pekin, would be unsafe for American refugees as well as for the lack of a suitable guard.

GERMANY'S COURSE.  
Berlin, June 6.—German official circles continue to regard the Chinese situation as grave. This is shown by the additional number of marines landed from the Illus, and from the fact that the large protected cruiser Hertha, bearing the commander of the far Asiatic squadron, Rear Admiral Bendemann, has been ordered to proceed to Taku.

Reports have been received in official quarters that railway construction in Shan Tung has been forcibly stopped by the systematic attack of large numbers of members of the "Black Knife secret society in Shan Tung, similar to the "Boxers."

As indicating the importance attached to crisis in China by State Department officials, the armistice reported to have been requested by Gen. Buller at Laisan's Neck is attributed from London intended to save his forces from further execution as they may be needed immediately in the far East. This is perhaps mere speculation, but it is ingeniously shown that these troops, within a day's ride from Durban, where fast transports could be quickly loaded, are the nearest seasoned English forces to China; and if British soldiers are required at Tien-Tsin they would naturally be drawn first from this point.

NAVY DEPARTMENT ACTING.  
Norfolk, Va., June 6.—That the Navy Department means to assemble an emergency squadron with a more important object than to merely ascertain how quickly this may be accomplished, is evident here to-night. It is learned from naval sources that inquiry has been made as to how soon a formidable squadron may be coaxed into, incidentally, how quickly two little-ships may be supplied with 1,000 tons of coal each.

This last inquiry is believed by naval men to indicate the purpose of the department to dispatch two of our largest warships on a long voyage which, they believe, will end at a Chinese port. They point out that in the Oregon, Newark, Brooklyn, Baltimore, Marietta and other ships now at Manila, we have a squadron about as powerful as the one which we had at Santiago, and that the sending of at least two more of great battle-ships to the Pacific waters, or that a strong demonstration is intended.

Several officers here have been assigned to ships which will be in the emergency squadron, and they have hurried away to join their new commands. One of these, Lieut. Brown, who was superintending the preparation of the torpedo boat Strigheim for her trial trip, proceeded to day to League Island to join the Massachusetts.

BATTLE-SHIPS GETTING READY.  
Philadelphia, June 6.—Under orders from the Navy Department, the battle-ships Massachusetts and Indiana, at the League Island navy yard, are being prepared for sea. The orders give no clue as to what service the vessels may be called into, the notice to Commander Casey being simply get the ships ready and dispatch them as soon as possible to Hampton Roads, where they are to await further orders. The war ships were piloted out of the reserve basin around to the Delaware River front, where preparations for departure were finished. Both vessels were practically ready to go to sea when orders came, having been thoroughly overhauled at the Brooklyn navy yard before their arrival here.

The two vessels were loaded with enough coal to make a trip across the Atlantic, and they contain large supplies of ammunition. There are 20 men in reserve crew of each ship, the balance of the complement 405 sailors and eighty marines having been distributed among various naval stations after the vessels reached here from Brooklyn.  
The Irish crew were filled out with the 325 men who came here on the frigate Hartford from Hampton Roads

and the other details ordered here from New York and Boston. The Hartford's men include 400 landsmen who have just been brought around from San Francisco. Recruits were also taken from among the sixty landsmen and apprentices on the receiving ship at League Island.

SITUATION GROWING WORSE.  
Pekin, June 5.—The situation is growing steadily worse. Events move with such rapidity, and affairs, owing to the excitement of the natives, are so critical that the foreign ministers hold frequent meetings. They feel the need of a free hand for energetic action, without a perpetual reference to the home governments.

Sir Claude MacDonald, the British minister, is waiting for seventy-five more marines.  
Native employees who have returned from Feng Tai say they left the "Boxers" openly drilling in the adjacent village.

A strong imperial edict, issued this evening, censures the "cowardliness of the imperial troops," and orders the victory of Pe Chi-Li and Gen. Jung Lu immediately to suppress the "Boxers."  
The foreign ministers at day's meeting discussed the proposition for a special audience of the Empress Dowager, but no decision was reached.

JAPAN'S WARLIKE MOOD.  
Victoria, B. C., June 6.—E. R. Hall, in a letter from Tien Tsin, gives a description of the beginning of the "Boxers" movement in Shantung. About the end of April, he says, a convert, under the care of the American Presbyterian mission, arrived at Chinan with a report that Boxers had taken possession of a near-by inn, all ingress to which had been barred. Peeping through the gates of the inn, he saw within their yellow flag with the red border, their long poles, pointed with iron, and the cart bearing their gods which they take when they go on marauding parties.  
When the convert gave the alarm, the Governor summoned the troops. They hurried to meet the "Boxers." A battle was then fought. It lasted two hours, and twenty-one Boxers were killed.

Advice brought by the Empress of China report that the belief grows in Japan that before long there will be war with Russia. A great many of the Japanese and foreigners in Japan are of the opinion that an understanding exists that when the military are mobilized for the big demonstration in the fall, hostilities will probably be begun. Many Japanese papers have articles based on this report.

When the natives attacked the British ship at Hai Wei, the Chinese regiments, 31 wounding Capt. Penrose and Periere, two Chinese officials were captured by the rioters. They have been since held, and it is reported, tortured on the ground. The rioters allege that the twin sold the territory at Hai Wei to the British without the knowledge of the Emperor.

RUSSO JAPANESE MENACE.  
Shanghai, June 6.—Alarming reports are current here of the hurried completion of the mobilization of the Japanese fleet.  
The Russian Minister at Pekin, M. de Giers, has made another attempt to induce the Chinese Foreign Office to formally request Russian assistance to restore order, but the offer has not yet been accepted.

Violent dissensions are reported to exist between the Chinese commander-in-chief of the force, Jung Lu, and Prince Ching Tuan, who, in accordance with the wishes of the Dowager Empress, is supporting the cause of the "Boxers."

The mobs who murdered the English missionaries, Robinson and Norman, mutilated and disemboweled the bodies. The station at Yan-Tin, three miles from Pekin, has been burned. The British Minister, Sir Claude MacDonald, is reported to be quite ill.  
The soldiers dispatched to attack the "Boxers" have fought an engagement quite close to Pekin. Many were killed on both sides.

In consequence of the representations of Japan, the landing of a large Russian force at Taku is alleged to have been stopped.

It is believed here that should Russia persist in sending a preponderant military force to the front a collision with Japan will inevitably result.

FOREIGNERS LEAVING PEKIN.  
London, June 6.—A special from Shanghai, dated June 6, says the members of the majority of the legations at Pekin, including the members of the British legation, are sending their families away. It is also said that several prominent Chinese residents are leaving the city.  
There is an unconfirmed report that two Russian engineers have been murdered at Yu Chow Fu, northwest of Port Arthur, after their wives had been brutally assaulted.

The total damage done to the Chinese railways by the "Boxers" is now estimated at \$3,000,000.  
Advice received from Japan say the Cabinet presided over by Marquis Yamagata has resigned, and the Emperor has invited Count Matsukata

Matsukata to form a new Cabinet, but he declined, and Marquis Ito is now endeavoring to form a coalition ministry.

Affairs in China are gradually working up a crisis of the first magnitude. The morning papers comment at length on the report that the British naval strength in the disturbed region is inferior to that of other powers. Stress is laid on a cablegram to the Times declaring that not one "Boxer" has yet been arrested or punished.

FOREIGNERS MURDERED.  
Tien Tsin, June 6.—The Chinese servant of a Belgian engineer, who left Pao Ting Fu two days after the Belgians saw five foreign and two Chinese dead bodies in the Grand Canal, one being the body of a foreign woman.

A "Boxer" placed threatens the extermination of the foreigners here on June 6.

It is rumored that the "Boxers" and Catholic Christians fought at Tung Hu on Tuesday, three Christians being killed.  
One hundred and thirty one British, thirty one German, fifty French and forty five Italian marines have arrived here. These reinforcements render Tien Tsin secure.

The Paris Democrat in defending the Goblet election law, says: "It was to the Democrats a political necessity. Such a law had to be enacted or else the control of the State had to be given over permanently to the opponents of the Democratic party." This is a brutally frank statement, and is a confession that this hideous law is all that its opponents charge—a corrupt machine to steal elections and retain the Democratic party in power.

Wanted the Democrats to  
Denounce Gov.  
Mount.

Hoosier Politicians not Ready

## PLANS NOT STRONG ENOUGH.

The following telegram from Indianapolis appeared in Sunday's Louisville Commercial:  
It has just become public here that two of the Jack Chinn trio of Democrats journeyed all the way from Kentucky to the Indianapolis convention in order to induce the Indiana Democrats to pass a resolution condemning Gov. Mount for his refusal to extradite Secretary of State Finley.

It is said here that the resolution was actually drawn up in Kentucky and sent here by special messenger. Chairman Rutledge was captured before he reached Indianapolis and induced to denounce Gov. Mount. The speech was prepared and delivered to the newspapers before the convention convened. Mr. Rutledge was assured by the Kentucky contingent that a resolution embodying a similar position would be embodied. The speech had not been delivered ten minutes when it was discovered that a horse's nest had been stirred up on that issue. The Jack Chinn men and a few sympathizers on hand worked hard to stave off the opposition.

The resolution condemning Mount as agreed upon was delivered to the committee on resolutions and an earnest appeal made to its behalf, but it "died a born." The better element gave the crowd to understand that such a resolution would lose the Democratic ticket 10,000 votes next fall. They said it was generally known that Gov. Taylor was fairly elected and had been robbed, and was now being pursued simply because he was elected and called into question the Goebbles' right to rob him.

## OPIMUM

The Democrats have all along contended that they have been proceeding "under the forms or law." Will they have the hardihood to claim that the indictment against Governor Taylor was procured and reported according to law?

A Michigan friend hands this in: As the train was leaving for Chicago the other day, a young man accompanied by a boxman dangled strolled into a Pullman sleeper and approached the polite porter and said in a low confidential tone: "Mister, me and my wife have just got married and are looking for the best accommodations this train has." "Looking for a berth, I suppose," said the dusky son of Ham, as he turned to assign seats to other passengers. "A berth? Thunder and lightning, no!" gasped the astonished rustic. "We haven't but just got married. We only want a place to stay all night, you know, that's all—Ex."

Rabbi David Klein, 626 E. Main street, Columbus, O., writes the following to Dr. Hartman in regard to Peruna: "It affords me great pleasure to testify to the curative merits of your medicine. victim wonders why he should be so weak, why his food gives him no strength, why his blood should be so thin.  
Mr. Alex. Carter of Van Buren, Carter Co., Mo., says: "I had been troubled with dyspepsia and indigestion since 1870. The best physicians in the country could do no good. I visited the Mullanphy hospital in St. Louis and received no benefit. The attending physician told me I had narrowing of the outlet of the stomach, and the only remedy was to have it cut out, which I refused to have done. I then visited West Baden, Ind.; Las Vegas Hot Springs, New Mexico; Sweet Springs, Mo., and Monticello, Va. I also took a great many different kinds of medicine recommended for dyspepsia, but found no relief. Last February I read a testimonial for Peruna in the Central Baptist that suited my case and I determined at once to try it. I have taken two bottles of Peruna and four of Man-at-tin, and I feel like a new man. None of my friends believed I would get well. I would not take any money for the good your remedies have done me." In catarrh of the stomach, as well as in catarrh of any other part of the body, Peruna is the remedy. As it has often been said, if Peruna will cure catarrh of one part, it will cure catarrh of any other part of the body.

## CALIA, P. I.

March 6, 1900.—Mr. S. D. Bennett, Buda, Ky. Dear Uncle: As I have not heard from you for some time, I will drop you a few lines. I am well at present and hope that this will find every one the same. We are on the northern part of the Island Panay. The natives are supposed to be friendly, but they are not. We have had several skirmishes with them lately.  
On the 21st day of February Co. C, left this place for a three days' march to the interior. We were well treated. The first two days we passed through several little towns and many places were met by native bands. In the most of towns there is a priest and they were always more than friendly. They often see us coming and would have water carried out to us. There were white flags hanging from the windows of each house that a native lived and often one could hear a native utter the word MUCIR AMICO AMACANON, which meant they were friendly to the Americans. On the third day was where the fun came in. We were up and had breakfast at 4 o'clock. At 4:30 the bugle sounded assembly and everybody was in ranks ready for another march. We marched until about 9 o'clock, not a white flag had been seen, and but a few natives, every place seemed to have been deserted, no one took any particular notice to the surroundings, thinking that everything was alright. While crossing a little river we were fired on by about 500 natives who were well entrenched and had plenty of ammunition. There were 600 bolo men in addition to the 500 riflemen. They had some kind of a rapid firing gun, but they did not do anything with it. We fought here for four solid hours, I let. Bowles being in command of the company, got shot. We saw that we were being surrounded fast and we only had 200 rounds of ammunition at the start and by this time we were running short, and was compelled to retreat. They had no near surround and we found it a little difficult to get out; had been 25 minutes later they would have had us where they wanted us and perhaps we would have been there yet. We got out of this place, advanced about two miles, when we were fired upon again by a small force from the bushes. A few shots were fired in return which silenced

their firing without getting a man hurt.  
We continued our journey, marching in single file and kept the distance of about 6 feet between each man. We had gone some little distance when we came to an opening and at the far side of this opening there was a small bridge the first day we passed through, but the insurgents had destroyed it, except one log and it was not safe for more than one man to cross at a time. The column halted for the pack train to cross, when we were fired on the third time by about 50 natives, which were concealed in some tall grass on a small ridge about 100 yards away. This engagement lasted about one hour and resulted in two miles of the pack train being killed and three men wounded. All this trouble happened in the country where we had been so well treated—so well the day before when we passed through. About the time the last shots were fired, a native guide which had been with us during the whole trip, told one of the officers that there was a priest a short distance ahead of us. A squad of men went forward in search of him, but found no priest.  
By this time it was 3 o'clock in the afternoon and we 12 miles from camp and almost out of all ammunition, and everything looked as if we would have to fight our way home.

We got through without any more trouble that day. The company had one officer and three men wounded, but none killed. No one has been able to learn what the enemy's loss amounted to after this day's fighting.  
If you ever hear of any person who says the Philippines should have their liberty, I regard that person as crazy, I do not care who he is. I believe from what I can learn through the papers that is what Bryan is intentioning on in the States. If he is, you can bet that he will never be elected President of the United States. But as to the Filipino insurrection, it is no nearer an end to-day than it was on the 6th day of March, 1899.

I have not heard from Earl for some time, but I don't suppose anything has happened to him, or I would have heard of it. Resp'y,

R. L. LILES,  
Co. C, 6th U. S. Inf't.

## VARICOCE

The questions of imperialism and trusts were, by far, more important to the American people than the question of Free Silver—Bryan's 'hobby' of '96—forgetting that the Southern States are in favor of expansion, and without the aid of these states Bryan is already defeated. We have mapped out the platform of the Democratic party for the presidential campaign this year and we have not erred. It is in short: anti-everything that threatens the interests of the people.

In our judgement nothing can be done to balance against the evil which has been committed at Frankfort by Goebel and his henchmen; nothing can be balanced against the overthrow of the ballot box, the will of the people and a republican form of government. Governor Taylor may have made some slight mistakes since January 1, but these mistakes will never justify the crimes of Goebliem. Mr. Goebel and the Democratic party are unquestionably responsible for his death, for they refused to bow to the will of the great common people and instigated and protracted a reign of terror at Frankfort and in this excited state of affairs, young Goebel, the father of the reign of terror, fell murderously wounded on the very threshold of the hall of "mock" justice.

These are other similar acts were done, "according to the terms of law," among those who aided in their accomplishment were men of repute in their communities; yet the acts were done. The possibility of success in such policy was solely through the centralized government of the Democratic party and the transmute under the G. O. law. The Democratic party is vastly more interested in the reformation of this party government and the repeal of the G. O. law than the Republican party. The Louisville convention, the rule of the Frankfort dynasty and the strong control creates division in the Democratic party which inure to the advantage of the Republican party; the inequities accomplished and shown to be probable under the G. O. law, is dividing the Democratic party to the advantage of

# TIME AND SPACE

are practically annihilated by the ocean cables and land telegraph systems which now belt the circumference of Old Earth in so many different directions. "Foreign parts" are no longer foreign in the old meaning of the term. Europe, Africa, Asia, are "next door" to us. What happens there to-day we know to-morrow—if we read **THE CHICAGO RECORD**, whose Special Cable Correspondents are located in every important city in the world outside of the United States. No other American newspaper ever attempted so extensive a service; and it is supplemented by the regular foreign news service of The Associated Press. For accurate intelligence of the stirring events which are shaking the nations—of wars and rumors of wars—of the threatening dissolution of old governments and the establishment of new—of the onward sweep of the race in all parts of the world—the one medium of the most satisfactory information is the enterprising, "up-to-date" American newspaper, **THE CHICAGO RECORD**.

**FREE** A large map of the world on Mercator's Projection, about 25x16 inches in size, beautifully printed in color, with a large-scale map of Europe on the reverse, will be sent to any address free of charge on receipt of request accompanied by two recent stamps to cover postage and wrapping. The map illustrates clearly how conveniently the special cable service of **THE CHICAGO RECORD** covers the entire civilized world. Address **THE CHICAGO RECORD**, 181 Madison Street, Chicago.
